Project Demo Planning

Date	26 October 2026
Team ID	Gyanvi Jain
Project Name	Formula 1 Race Intelligence Dashboard
Maximum Marks	4 Marks

PProject Demo Planning

A well-structured demo plan ensures that the project is presented effectively, covering all key aspects in a clear and organized manner. This document outlines the demonstration flow, key features to highlight, and the responsibilities of the project developer.

Demo Schedule

S.No.	Demo Section	Description	Duration (mins)	Responsible Member
1	Introduction & Problem Statement	Introduce the project, explain the challenges of analysing Formula 1 data, and present the project objectives.	2	Gyanvi Jain
2	Solution Overview	Explain the proposed Tableau dashboard, data sources, data preparation, and technology stack.	2	Gyanvi Jain
3	KPI Cards & Driver Performance	Demonstrate the four KPI cards and the driver performance leaderboard using the Top N parameter.	3	Gyanvi Jain
4	Reliability & Team Analysis	Demonstrate DNF reasons, driver reliability, team performance, championship comparisons, and tyre compound analysis.	3	Gyanvi Jain
5	Geographic & Podium Analysis	Explain the geographic participation visualisation and podium achievements by driver and team.	2	Gyanvi Jain
6	Conclusion & Q&A	Summarise the major outcomes, discuss future improvements, and	3	Gyanvi Jain

	answer questions from the audience.		
Total		15 minutes	Gyanvi Jain

Total planned duration: 15 minutes

Demo Flow Summary

Step	Activity	Notes
1	Introduction & Problem Statement	Explain why analysing Formula 1 data across drivers, teams, seasons, and race outcomes can be time-consuming.
2	Solution Overview	Introduce the Formula 1 Race Intelligence Dashboard, its data sources, and Tableau-based implementation.
3	Live Feature Demonstration	Open the dashboard, explain KPI cards, use the Year and DNF Reason filters, adjust the Top N parameter, and demonstrate driver, team, tyre, geographic, and podium visualisations.
4	Key Insights & Outcomes	Explain how the dashboard helps users compare performance and explore race reliability and championship trends.
5	Q&A Session	Answer questions about data preparation, calculations, visualisations, limitations, and future scalability.
