Project Demo Planning

Date	26 October 2026
Team ID	Gyanvi Jain
Project Name	Formula 1 Race Intelligence Dashboard
Maximum Marks	4 Marks

Project Demo Planning:

A well-structured demo plan ensures that the team presents the project effectively, covering all key

aspects in a clear and organized manner. This document outlines the plan for demonstrating the project,

including the flow of the demo, key features to highlight, and responsibilities of each team member.

Demo Schedule

S.No.	Demo Section	Description	Duration (mins)	Responsible Member
1	Introduction & Problem Statement	Introduce the project, explain the challenges of analysing Formula 1 data, and state the project objectives.	2	Gyanvi Jain
2	Solution Overview	Explain the proposed Tableau dashboard, data sources, data preparation, and technology stack.	2	Team Member 2
3	KPI Cards & Driver Performance	Demonstrate the four KPI cards and the driver performance leaderboard with the Top N parameter.	3	Gyanvi Jain
4	Reliability & Team Analysis	Demonstrate DNF reasons, team performance, championship comparisons, and tyre compound usage.	3	Team Member 3

5	Geographic & Podium Analysis	Explain the geographic participation visualisation and podium achievements by driver and team.	2	Team Member 4
6	Conclusion & Q&A	Summarise the major outcomes, discuss future improvements, and answer questions from the audience.	3	All Team Members

Total planned duration: 15 minutes

Demo Flow Summary

Step	Activity	Notes
1	Introduction & Problem Statement	Explain why analysing Formula 1 data across drivers, teams, seasons, and race outcomes can be time-consuming.
2	Solution Overview	Introduce the Formula 1 Race Intelligence Dashboard, its data sources, and Tableau-based implementation.
3	Live Feature Demonstration	Open the dashboard, explain KPI cards, use the Year and DNF Reason filters, adjust the Top N parameter, and demonstrate driver, team, tyre, geographic, and podium visualisations.
4	Key Insights & Outcomes	Explain how the dashboard helps users compare performance and explore race reliability and championship trends.
5	Q&A Session	Answer questions about data preparation, calculations, visualisations, limitations, and future scalability.
